Summary

A software engineer with over 5 years of experience in designing, developing, and maintaining robust software applications. Proficient in utilizing technologies such as React, Redux, NextJS, NodeJS, and AWS to create scalable solutions. Demonstrated ability to work effectively in agile teams and solve complex problems in good time.

Experience

BUILDING YOU

January 2024 - Present

Lead Fullstack Developer

United Kingdom

🌐 <https://buildingyou.co/>

- Led the engineers working with me in the agency in developing feature-intensive applications such as [seekooool.co](#) and [nessvie.co.uk](#) which currently have more than 10k active users.
- Increased feature delivery speed in applications by 35% by integrating agile methodologies and continuous integration/continuous deployment (CI/CD) pipelines.
- Actively participated in code reviews, maintaining a code quality standard that reduced errors and bugs by 20%.
- Played a key role in Building you by securing a \$500k software offer and demonstrating the scalability and robustness of our developed applications.
- Implemented performance optimization techniques that improved application load times by 40%.

SPOTMATE

January 2021 - 2023 December

Senior Fullstack Developer

United Kingdom

🌐 <https://spotmate.co.uk/>

- Led a team of 5 engineers in developing a high-traffic Social and fitness platform, Contributed to Spotmate securing over \$1M in investments through innovative and efficient software solutions.
- Mentored a team of engineers in developing the front-end architecture, increasing user engagement by 30% through improved UI/UX.
- Actively participated in code reviews, maintaining a code quality standard that reduced errors and bugs by 20%.
- I improved accountability for my team by creating a knowledgebase and by providing daily reports, and feedback.
- Implemented performance optimization techniques that improved application load times by 40%.

UNISKILLS

January 2020 - February 2021

Senior Frontend Developer

United Kingdom

🌐 <https://www.uniskills.net/>

- Collaborated on the development of a web application that served over 10,000 users monthly.
- Increased feature delivery speed by 35% by integrating agile methodologies and continuous integration/continuous deployment (CI/CD) pipelines.
- Provided technical support and resolved 95% of reported issues within 24 hours, ensuring smooth operation of applications and systems.
- I avoided technical debt on the project by properly researching 3rd party libraries before usage, reviewing commits before merging, and refactoring codes to the best practices.
- I lead the development of the core web application pages and features that drive growth, including the profile dashboard, student details, student listings, and job listings.
